

# Cukien Nursery Home Learning Grid - 18.1.21

<h3>Literacy (Laura)</h3> <p><b>Learn Your Letters Bingo Game!</b></p>  <p>Start by making and cutting out little individual squares for all the letters of the alphabet. Next, make bingo card grids and fill them with letters (kids can help write the letters). Have a grown up pick a letter square, if it's on your bingo card, mark it with a button or piece of Lego.</p>	<h3>Outdoor Learning (Laura)</h3>  <p><b>SNOW ART!</b> This was one of my kids favorite activities when it snowed. (I know that was a long time ago but it's timeless) 1. Spray bottles 2. Fill with cool water. (warm water will melt the snow) Add a few drops of food coloring. 3. Have at it with your creativity.</p>	<h3>Numeracy (Alix)</h3>  <p>You will need an old egg container - get a grown up to number each space - you will then need stones or buttons. You have to place the correct number of stones or buttons in the space, for example if it was number two you would place two stones into the hole.</p>
<h3>Health and Wellbeing (Alix)</h3>  <p>Squish the fish cosmic kids yoga ! <a href="https://www.youtube.com/watch?v=JLjyfzXWQHg">15:14 Squish The Fish   A Cosmic Kids Yoga Adventure! YouTube · Cosmic Kids Yoga 5 May 2012</a></p>	<h3>Science (Megan)</h3> <p>Make a rain cloud in a jar. Using a glass jar or any see through container, fill 3/4 of it full with water. Squirt shaving foam on top of the water reaching the top of the container. Mix food colouring with some water in a small bowl. Using a small spoon or any equipment available, pour the coloured mixture over the shaving foam little bits at a time. Watch as it seeps through the shaving foam and appears like rain.</p> 	<h3>Family Learning (Megan)</h3>  <p>Rock art. Go on an adventure to find some rocks either in the garden or close to home. Both adult and child select the rocks you'd like and take them home. Talk about size and shape of them. Wash the rocks under water. Using paint or any art &amp; crafts materials you have, decorate your rocks. Talk about how you are decorating them and work on a few together. Photograph your collection of rock masterpieces when finished.</p>

## **Be Independent (Zoe)**

Allow children to help meal plan for the week, and then let them help you write up a shopping list. Encourage them to prepare their own lunch, buttering their bread, putting fillings on and then cutting sandwich and picking their bit fruit.

This will encourage independence, show children how to plan and select materials.

In preparing their lunch they will be working on their fine motor skills, which will help develop their grip for holding a pencil to write.

## **Be Creative (Zoe)**

Provide covers, cushions, pegs, chairs and an area where they can build a cosy den. They can have a

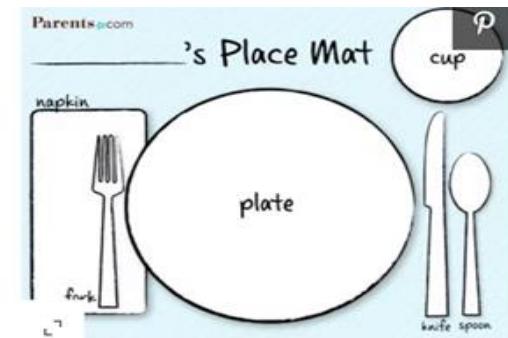

picnic inside it, or some quiet time with their favourite book or play with their small world figures.

This will give your child the opportunity to try new ideas developing their flexible thinking and problem solving skills.

## **Be helpful (Nicole)**

Can you help around the house today by helping set the table for dinner? Have a look at the template and see if you can copy where everything goes. Ask your grownup for some help if you get stuck. Take a picture and share your table setting with the nursery ladies on Twitter.

Every week one of the ladies will be on our Cuiken Nursery You tube channel, where you will find stories and craft ideas recorded from staff -

[https://www.youtube.com/channel/UCzVCZvG\\_9\\_nWqICW--svrOw](https://www.youtube.com/channel/UCzVCZvG_9_nWqICW--svrOw)

If you try any of our activities it would be lovely if you tweet us some pictures and we can reply. If you don't have Twitter, please feel free to email any pictures to Debbie. [D.McFarlane@mgfl.net](mailto:D.McFarlane@mgfl.net)
